#### Dear Parents/Guardians:

So that we may best meet the needs of your children, it is important that the enclosed health forms be completely filled out. Please sign, date and return the completed forms to the school nurse prior to the start of the new school year.

Enclosed are the following:

- Health & Emergency Card: Please fill out both cards on both sides. Sign and date them.
- Health History Form: Complete and sign.
- Physical Exam Form: Annual physicals are recommended. They are required by the State of NJ if participating on a team or intramural sport. New students are required by the State of NJ to provide a recent physical exam. The first two pages are to be completed by the parent/guardian. The second two pages are to be completed by the physician.
- Authorization to Administer Prescription Medication: Please have your child's physician complete this form if daily medication is required during school hours. All medications must be sent to school in the original pharmacy container which is labeled with the child's name, current date, medication and dosage.
- <u>Emergency Medications</u>: If your child has been diagnosed with a medical condition that requires emergency medications, the physician must complete the enclosed emergency action plans (Asthma, food allergy, seizure disorder). Please contact the nurse to discuss emergency action plans.
- <u>Authorization To Administer Non-Prescription Medication</u>: This form is for all students. Please
  circle the medications you are giving permission for the school nurse to administer to your
  child if needed during school hours. If your child will need over the counter medication not
  listed on this form, a doctor's order with signature & date is required.
- Annual Health Screenings: This form allows for your consent or refusal to scoliosis screening of your child.

Immunization records for new students must be submitted prior to the first day of the new school year. Your physician can fax this information to the school if you authorize them to do so. Please direct all health information to the attention of the school nurse. Fax: 973-439-1396

Reminder: Please call the school when your child will be absent.

We are a nut free school. Many of our student have allergies.

Please call us at 973-439-1919, ex.207 if you have any questions, or email us at BESnurse@banyanschool.org.

Sincerely,
Diane T. Boysen, RN
Lisa Sullivan, RN

Re: Annual Health Screenings

Dear Parents/Guardians:

Each year health screenings are conducted for our students. The health screenings include height, weight and blood pressure measurements as well as basic hearing and vision checks. A scoliosis screening is conducted biennially for students age 10 and older.

Scoliosis is an abnormal curvature of the spine that most commonly develops in the early adolescent years. The purpose of the scoliosis screening is to detect signs of curvature at its earliest stages.

The scoliosis screening takes approximately thirty seconds and is performed by viewing the spine while the student stands, as well as bends over. The screening requires visual inspection of the student's bare back; therefore, all students are screened individually and privacy is maintained.

Please note that school based health screenings do not replace the need for regular health care check-ups.

Please sign, date and return this form on or before the first day of school. Should you have any questions or concerns, please call and speak to the school nurse at (973) 439-1919 extension 207.

Sincerely,

Diane T. Boysen, RN

Monitoring  Stay with student; alert healthcare professionals and parent. Tell rescue squad epinephrine was given; request an ambulance with epinephrine. Note time when epinephrine was administered. A second dose of epinephrine can be given 5 minutes or more after the first if symptoms persist or recur. For a severe reaction, consider keeping student lying on back with legs raised. Treat student even if parents cannot be reached. See back/attached for auto-injection technique.

# Parental Request/Authorization for the Administration of Epinephrine via Epi-Pen by the School Nurse or a Trained Delegate

As the parent/guardian of, a student of Banyan School, I authorize the School Nurse or a Substitute School Nurse, to administer Epinephrine via Epi-Pen to my child for the treatment of Anaphylactic Reaction.
I acknowledge that in the absence of the School Nurse, New Jersey State Law allows the emergency administration of one dose of Epinephrine, via Epi-Pen, by another school employee designated and trained by the School Nurse.
I acknowledge that Banyan School and its agents shall incur no liability as a result of any injury arising from the administration of the Epi-Pen to my child. I further agree to hold harmless Banyan School and its agents against any claims arising out of the administration of the Epi-Pen to my child.
I acknowledge that I am responsible for providing all medications ordered for the treatment of allergic reaction in my child to the School Nurse, in original labeled containers.
I acknowledge that this authorization is valid for the School Year.

### Asthma Treatment Plan - Student Parent Instructions

The PACNJ Asthma Treatment Plan is designed to help everyone understand the steps necessary for the individual student to achieve the goal of controlled asthma.

- 1. Parents/Guardians: Before taking this form to your Health Care Provider, complete the top left section with:
  - · Child's name
- · Child's doctor's name & phone number
- · Parent/Guardian's name

- · Child's date of birth
- · An Emergency Contact person's name & phone number
- & phone number

- 2. Your Health Care Provider will complete the following areas:
  - · The effective date of this plan
  - The medicine information for the Healthy, Caution and Emergency sections
  - · Your Health Care Provider will check the box next to the medication and check how much and how often to take It
  - · Your Health Care Provider may check "OTHER" and:
    - Write in asthma medications not listed on the form
    - Write in additional medications that will control your asthma
    - Write in generic medications in place of the name brand on the form
  - · Together you and your Health Care Provider will decide what asthma treatment is best for your child to follow
- 3. Parents/Guardians & Health Care Providers together will discuss and then complete the following areas:
  - · Child's peak flow range in the Healthy, Caution and Emergency sections on the left side of the form
  - · Child's asthma triggers on the right side of the form
  - · Permission to Self-administer Medication section at the bottom of the form: Discuss your child's ability to self-administer the inhaled medications, check the appropriate box, and then both you and your Health Care Provider must sign and du the form
- 4. Parents/Guardians: After completing the form with your Health Care Provider:
  - · Make copies of the Asthma Treatment Plan and give the signed original to your child's school nurse or child care provider
  - Keep a copy easily available at home to help manage your child's asthma
  - · Give copies of the Asthma Treatment Plan to everyone who provides care for your child, for example: babysitters, before/after school program staff, coaches, scout leaders

PARENT AUTHORIZATION  I hereby give permission for my child to receive medication at school as in its original prescription container properly labeled by a pharmacist information between the school nurse and my child's health care prounderstand that this information will be shared with school staff on a new .	or physician. I also give p ovider concerning my chi	permission for the releaseand exchange of
